

Abstract

Airdryclay is air dried and can be used to create sculptures. The oven-drying technique is suitable and convenient.

Background Research:

The oven-drying technique used with airdryclay is discussed in the report.

sculpture

Results

Oven drying is suitable for creating sculptures with airdryclay.

Conclusion

Oven drying is suitable for creating sculptures with airdryclay.

Future Directions

The oven-drying techniques used to dry airdryclay in the oven are effective and safe. In the future, further research should be conducted on the oven drying techniques.
